

Fintica Limited Opens New Research and Development Center in Zurich, Switzerland

10 September, 2019

Hong Kong / Tel Aviv – Fintica Limited, the financial technology firm focused on next-generation artificial intelligence for the financial services industry, is pleased to announce the September opening of its new office in Zurich, located at: The Blue Lion Incubator, Sihlquai 125, 8005 Zurich, Switzerland; Phone: +41 43 299 6060.

Expanding from Cortica's headquarters in Tel Aviv, this new office will serve as a core finance-oriented R&D center for Fintica as well as outreach to customers in one of the world's most influential financial centers. The Zurich office is the latest addition to a growing list of established Fintica locations around the globe that already includes Hong Kong, Tel Aviv, and New York, NY.

With highly advanced Autonomous Artificial Intelligence powered by industry leader Cortica, and backed by more than 200 patents, Fintica utilizes this self-learning AI to detect financial anomalies in the arenas of market surveillance, trading, and transaction data. As the system operates with unsupervised learning methodologies, Fintica is capable of making sense of the massive amounts of unstructured data that exist within the financial industry.

The new Zurich office will focus upon implementing this technology into major financial pain points and use cases across capital markets, compliance functions, and more.

The Zurich office is headed by Thomas Russell, Fintica's lead AI data scientist, together with deputy head Esteban Lanter.
